If the number of entries registered in an individual category exceeds the capacity of the published preliminary schedule and the competition cannot be held according to the published preliminary schedule, the organizer may limit the number of competitors in the free skating to a maximum of 30 for Juniors.

The number of registered competitors is not limited. After the ISU Member receives confirmation of the entries from the ORS system, they log in a maximum of two competitors per category on the European Criterium entry system with music. Alternatively, they forward the received confirmations from the ORS to their interested clubs, who can then login a maximum of two competitors per category with music on the European Criterium entry system.

Organizer reserves the right to make exceptions and accept additional entries. Each competitor registrant must confirm that the competitor has been validated through the ORS system.

Organizers of the European Criterium website are committed to properly protecting personal data in accordance with the EU GDPR Regulation. Therefore, appropriate consent is required during the application process as part of the Privacy Policy. Without this consent, future entries for European Criterium competitions will not be possible.

The “Program Content Sheet” for all categories must be submitted to the Organizing Committee not later than March 7th 2026. It is mandatory that each skater completes the sheet accurately in English, using terminology for the elements listed in the respective ISU Communication.

MUSIC

The participating member is responsible for submitting the Competitor's music after registration data is sent and confirmed.

When a competitor's application is sent it goes to status “pending”. After the application is confirmed, it receives an option to attach the appropriate music file with the program of the competitor. When the music file is attached to the application the status goes to “active” and the competitor is included in the official competitors list of the selected competition .

Mandatory music format is .mp3 file format.

The representatives of clubs or National Figure Skating Federations have a possibility to replace the music files of their competitors, three days before the start of the competition. Advanced novice, Juniors and Seniors must attach two music files to receive an “active” status of competitor's application (Short program and Free Skating). Competitors must have a copy of their music mp3 files on a USB stick or any external USB drive.
