Only the following NOCs may be allocated a quota place:</p> <ul style="list-style-type: none">• NOCs which have not obtained any quota places in the respective discipline in D.1;• NOCs which have obtained the necessary points for two (2) or three (3) entries but did not have two (2) or respectively three (3) Skaters qualified for the Free Skating/Free Dance at the ISU World Figure Skating Championships 2025. This quota place will be in addition to the quota place(s) that the NOC had obtained in D.1. These ISU members are entitled to enter one (1) Skater in the qualifying event who had not qualified for the Free Skating/Free Dance at the ISU World Figure Skating Championships 2025.
D.3:	<p>D.3 Team Event Qualification</p> <p>D.3.1 The Team Event format is based on a competition consisting of up to ten (10) best national teams from NOCs. In each team one (1) skater from the Men Single Skating event, one (1) skater from the Women Single Skating event, one (1) Pair Skating couple and one (1) Ice Dance couple, i.e. a total of six (6) skaters per Team, will compete (hereafter called the Team(s)). If a tie persists, the Team having obtained the higher number of qualifying points at the ISU Grand Prix of Figure Skating events & Final season 2025/2026 will be qualified. If a tie persists, the qualifying NOC will be decided by draw.</p> <p>Practically, one (1) to two (2) skaters in Women Single Skating and one (1) to two (2) skater in Men Single Skating, one (1) to two (2) Pair Skating couples respectively one (1) to two (2) Ice Dance couples per NOC could contribute to the cumulative number of qualifying points per NOC (the maximum two different single skaters/couples would be one skater/couple each at the two applicable group of Events).</p> <p>NOCs with Teams who have qualified skaters/couples in an individual OWG competition/discipline (the “qualified skaters/couples”) in Women Single Skating, Men Single Skating, Pair Skating, Ice Dance) and who have chosen to compete in the Team Event must list the respective qualified skaters/couples of such discipline also as entries for the Team Event and may not enter different skaters/couples for such discipline.</p> <p>Also, the same NOCs must have their skaters competing in all the competitions/disciplines of the Team Event for which they have entries in the individual OWG competition/discipline. This means that if for example an NOC has only one entry for a discipline/competition, this skater or couple may not choose to skate only in the individual OWG competition and skip the Team Event competition.</p>
--	---

	<p>The ten (10) qualified Teams will compete in the Short Program/Rhythm Dance. The five (5) best Teams having scored the highest number of aggregate placement points (see paragraph 4 of Appendix A below) after the Short Program/Rhythm Dance will qualify to continue the Team Event by skating the Free Skating/Free Dance.</p> <p>D.4 Additional Athletes Quota</p> <p>The Additional Athletes Quota of up to five (5) skaters will be used as a priority for the Host Country quotas allocation if needed.</p> <p>In addition, NOCs who do not have qualified skaters/couples in an individual OWG competition/discipline (Women Single Skating, Men Single Skating, Pair Skating, Ice Dance) may benefit of any remaining Additional Athlete Quota (after Host Country places are allocated) and enter into the Team Event with one (1) skater/couple. Preference is given to the best-ranked “incomplete Teams” according to the ranking of the Figure Skating Team qualification list.</p> <p>If applicable, each NOC may benefit of this Additional Athletes Quota for only one discipline of the Team Event.</p> <p>The Additional Athletes Quota beyond the above-mentioned five (5) skaters cannot be exceeded and if not sufficient for the “incomplete Teams”, the lower ranked “incomplete Teams” according to the ranking of the Figure Skating Team qualification list, may in such case not be able to complete their Team.</p> <p>NOCs having skaters in a discipline qualified for the respective individual OWG competition/discipline but who chose not to enter such skater(s) into the individual OWG competition/discipline, may not benefit from the Additional Athletes Quota.</p> <p>The Minimum Combined Total Elements Scores determined by the ISU for this Additional Athletes Quota may be different from the Minimum Combined Total Element Scores for the individual OWG competitions/disciplines. The applicable Minimum Total Element Scores shall be decided by the ISU Council and shall be published in an ISU Communication at the beginning of the Olympic season 2025/2026.</p>

HOST COUNTRY PLACES

If the Italian Olympic Committee (CONI) (host) qualifies in all individual events (Women Single Skating, Men Single Skating, Pair Skating, Ice Dance), the host country places will not be applied. However, in case the CONI went through the normal qualifying procedure and did not qualify in any of the disciplines (Women, Men, Pair Skating, Ice Dance), the CONI shall have the right to enter one (1) Skater(s)/Pair/Couple per concerned discipline(s) as additional entry(ies) as long as the concerned Skater(s)/Pair/Couple achieved the Minimum Combined Total Elements Score (points) for the Olympic Winter Games and meets the eligibility requirements described in section C. The quota places will be allocated from the additional Athletes quota as per paragraph D 4.

Skaters participating through the host country allocated quota will only compete in the individual events. It is important to note that these host country quota places do not automatically constitute a team for the host country in the Team Event unless the host country qualifies for the Team Event through the normal qualification process as described in D.3.

E. CONFIRMATION PROCESS FOR QUOTA PLACES

CONFIRMATION OF QUOTA PLACES

The ISU will publish the results of the event within 14 days after the event on its website (www.isu.org).

The ISU will confirm in writing to the NOCs within two (2) weeks after the last day of each event, or ranking, the quota places they have been allocated. The NOCs will then have two (2) weeks to confirm to the ISU if they wish to use these quota places, as detailed in section **G. Qualification Timeline**.

For Qualification Systems which conclude during the last two (2) weeks of the qualification period, or similarly for events taking place during the last two (2) weeks of the qualification period, notification of acceptance/rejection of allocated quota places by NOCs shall be limited to forty-eight (48) hours in order to maximise the potential for reallocation of any unused quota places. For those sports/disciplines with allocation to the NOC, a Late Athlete Replacement policy will be developed and published by the time of the Chef De Mission seminar.

CONFIRMATION OF HOST COUNTRY PLACES

The Host Country CONI must confirm in writing to the ISU immediately after the ISU Figure Skating Qualifying Competition the use of its Host Country Places.

F. REALLOCATION OF UNUSED QUOTA PLACES

REALLOCATION OF UNUSED QUOTA PLACES

Qualification places obtained and not used for the individual events (not the Team Event) by the NOCs, will be filled by stand-by NOCs based on the final result of the designated ISU Figure Skating Qualifying Competition in Beijing, CHN, 17 – 21 September 2025 for those NOCs not qualified and not yet represented.

In case that a Qualified NOC cannot send its Team to the Olympic Winter Games Milano 2026 for whatever reason, the ISU will invite the NOC whose Team is ranked next in the Figure Skating Team Event qualification list, if possible.

The starting order in the Short Program or Rhythm Dance segment will be the reverse order of the ISU World Standing placements. In the case of any tie, there will be a draw to determine who skates first.

Skaters/Couples, not having obtained any ISU World Standing points will be listed at the bottom of the ISU World Standing list in NOC order. There will be a separate draw between those skaters/couples of the respective discipline with no World Standing points to determine the starting order.

For Free Skating/Free Dance the starting order will be the reverse order of the respective result of each discipline after the previous segment.
